Thursday, March 4, 1954

NO ADDITIONAL TAXES FOR SCHOOLS UNTIL-Just about every candidate for governor has come out with the general statement that he favors more money for Alabama schools. Some of them have re-

marked, "even if it means more taxes." If all the counties in Alabama are set up like Coffee County, additional funds would be a bad investment. Here there is excessive overhead in the form of rural school that should be closed and overlapping bus routes that hike the cost of transportation. School partons and taxpayers in Coffee County are

not getting the maximum return on the dollars going into education right now. This is not the fault of the County Board of Education, superintendent of education, principals and teachers. Educational facilities in Coffee County are not up to the standard that could be obtained with present funds because parents and taxpayers don't want them to be any better than they

On the County Board of Education are successful business men who know how and want to better the schools in Coffee County-but the patrons and taxpayers won't let them. In years past the board has tried making districts to stop over-lapping bus routes and started closing certain small schools. These steps would have saved money and provided better education for ALL students at no increase in taxes. But delegations from the county stormed into board meetings, demanding their money be wasted and their children be handicapped by poor plant facilities. Not a single taxpayer showed up to defend the board in their economy move. So the Board, knowing better and wanting to cor-

rect the abuses, lets them continue to exist. Here in Coffee County is democracy failing to work. The fault is not corruption in Washington or Montgomery, kickbacks, payoffs, shady deals or incompetence. Children in school here are getting exactly what their parents order. Taxpayers are not getting their full value from educational tax dollars because they don't want it. In some rural communities the residents let the fear that their settlement will dry up (if the school closes) retard and handicap the instruction of all Coffee County children. They are making it more expensive for all the taxpayers. It is a glaring failure of the principle that democracy and home rule are the

Within reach of the people of Coffee County is the opportunity to rise above selfish interests and demonstrate they are capable of running their own school affairs without aid from the federal or state governments-and without imposing an additional tax burden on the community.

R. Leamon Farris, county superintendent of education, wrings every bit of value out of money he gets in his office after consideration is given to the fact he operates under an impossible set up. Recently Mr. Farris heard of a sale of surplus army equipment in Attalla. He drove to Atalla and picked up two cases of spark plugs at a cost of 2 1-2c per plug. On the transaction he saved about \$388 for the schools over what would have been paid on the open market for that quantity of spark

Patrons and taxpayers of Coffee County schools should be just as zealous about savings and bargains for education as the men they elect to office. Until they are, no new tax levies for educational purposes

ELECTRIC BOARD SHOULD LOOK INTO THIS ONE Last week the City Commission in Dothan voted to amend the city's residential and church electrical rates to encourage more consumption of electricity, such as installation of air conditioning and electric heating units in homes.

Under the new rate instituted in Dothan, the city expects to lose revenue for a while until consumption picks up. Then more revenue is expected with the in-

The new rate will limit the average cost to one and one-fourth cents per kilowatt hour in the bracket beginning between 1,600 and 1,700 hours whereas the present rate limits the average cost to 1 1-2 cents at 960 kilowatt hours for those homes and churches without a water heater and 860 for those with water heat-

Looking after the interests of business men in their city, the Dothan commissioners said they hope the new rate will stimulate sales of air conditioning and heating units to Dothan residents. Savings of about \$5 per month will come to residents who now use a oneton air conditioning unit in their homes. To the appliance salesman pushing the sale of an

air conditioner this is all-important. He and the customer both know that added to monthly payments of the unit will be an increased electrical bill. It's a factor tnat can easily knock a prospective sale out the door. Not only should a searching inquiry be made into residential rates to see if Dothan's lead could be followed but a thorough examination should be instituted on commercial rates. To put in an ir conditioning unit large enough to take care of the average store on the square would cost the owner around \$3,000. This in-

cludes a water tower. Since most stores don't have a three phase line running into them, one has to be installed. This means a demand charge of about \$6 per month in the case of a five-ton air conditioning unit. During summer months when the unit runs, one store owner paid a walloping \$40 per month electrical bill premium for his air condi-

For most Elba businesses a \$3,000 expenditure takes a long time to recoup. Add that to such a large increase in the current bill and few establishments can afford to modernize their store in this manner. It takes a lot of things to attact and keep customers coming into a town. Comfortable and modern shop-

ping places help.
During 1953, a boom year, almos every store on the square improved one way or another. Now with business off its peak, merchants need relief from high fixed expenses as well as encouragement to improve their

appliance field this year will be air conditioning units.' Revamping the electrical rates as was done in Dothan thus has the double barreled affect of giving business a shot in the arm and over a period of time increasing city revenue because of a larger volume of cur-

Operation Heartbreak-

Hardened highway authorities choked as they read this desperate appeal

in a grieving mother's letter. It was about a new plan to reduce traffic acci-

dents she had just read in her newspaper. Her son, riding with a 15-year-old licensed driver, had been killed in 1952. In her anguish and sorrow

and the aching void in her family circle, her first thought was for other

mothers. She felt she must do something to save others from that endless heartbreak which strikes into some 40,000 homes every year.

most worthy of everyone's consideration. As a mother whose boy was one of 38,000 Americans who lost their lives, I will whole-heartedly enlist

saving crusade to stop this killing on the highways? Not if you do your

part in the way you drive. And you can join community projects to make

streets and highways safer, too. A citizenry sick and ashamed of this reck-

less, heedless, unnecessary killing could contribute much to saving thousands

"What can I do?" she pleaded. "As a citizen I feel that such a plan is

includes a Tudor Sedan, Fordor Sedan and Business Coupe.

It's wide choice that helps make Ford the big choice for 1954! Whichever of Ford's 14 body styles you choose, you get the crisp clean lines of the recognized style-leader. And whichever of Ford's new engines you choose-the brilliant 130-h.p. Y-block V-8 or the flashing 115-h.p. I-block Six-you get thrilling "GO" with satisfying

economy. What's more, with new Ball-Joint Suspension-exclusive to Ford in its field-you enjoy handling and riding ease that's literally a new experience. And with a choice of all the worthwhile power assists . . . power steering, power brakes, power windows all around, 4-way power seat and versatile Fordomatic Drive . . . you can have your Ford as automatic as you want it. Why not make Ford your choice, too? Whatever your taste and requirements, there's a Ford that's exactly your kind of car. *at extra cost

POLITICAL ANNOUNCEMENTS FOR REPRESENTATIVE | (Pd. pol. adv. by E. O. (O'neal)

I hereby announce myself as Griswold, Enterprise, Ala.) a candidate for election as Representative from Coffee County FOR REPRESENTATIVE greatly appreciated.

Old Shoes Can Look

Like New Shoes

It's in the Bag!!

What's in the Bag!!

It is often a relief to put on an old pair of shoes

especially if they have been kept in good repair with

firm soles and straight heels. There is so much satis-

faction in knowing that your shoes always look neat

and ready to wear. You can stay within your shoe

budget by depending on Rushing for regular shoe
